DETAILED ACTION

Allowable Subject Matter

Claims 13-14 and 16-19 are allowed.

Reasons For Allowance

The following is a statement of reasons for the indication of allowable subject matter: The prior art taken alone or in combination neither discloses nor makes obvious the instant process of claims as a whole. Specifically, the prior art of record, Owada et al. (U.S. Patent 5,220,199) discloses a method of manufacturing a semiconductor device for forming a plurality of first wiring patterns (FIG. 4: 22a-22d) and second wiring pattern (FIG. 4: 3) (col. 7, lines 13-25) wherein in patterning the first and second wiring patterns, a dummy wiring pattern (FIG. 4: 8) electrically separated from the first and second wiring patterns (col. 6, line 57 to col. 7, line 2), the dummy wiring pattern not positively serving as any element in a circuit of the semiconductor device (col. 5, lines 25-49) but fails to teach or suggest the Applicant's steps of forming a plurality of first wiring patterns and a second wiring pattern at the same time on a same level, the first wiring patterns being connected to a gate electrode on a gate insulating film formed on a semiconductor region, and the second wiring pattern being connected to the semiconductor region, wherein in patterning the first and second wiring patterns, a dummy wiring pattern electrically separated from and placed between the first and second wiring patterns on the same level is left unetched, the dummy wiring pattern not positively serving as any element in a circuit of the semiconductor device as recited in the currently amended independent claims 13 and 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
